GENERAL INSTRUCTIONS FOR  
BLANK FORMS

MEDICAL DEPARTMENT  
UNITED STATES NAVY

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
1919

## GENERAL INSTRUCTIONS FOR BLANK FORMS (PERSONNEL).

---

1. Ribbon copies (originals) only of reports and returns shall be forwarded to the department, except where a form is required in duplicate or more copies, in which case clear carbon copies are permitted as the duplicate, or seconds, thirds, etc.

2. No form shall be extended by attaching pieces. A whole additional sheet of a form shall be used when necessary, or additional pieces pasted or fastened in such a manner so as not to increase the original size of the form.

3. Economy in spacing shall be exercised, and when not specially ruled, single-line spacing with the typewriter should always be used. Do not write or place other markings in spaces when no information is required. Leave them blank.

4. All reports and returns shall be forwarded at the time required, whether there is anything to report or not. Receipt of a form with no information at least informs the bureau that it has not been overlooked, or that it has not been lost in the mails.

5. All cases remaining on the sick list on December 31 shall be reported as "Continued to next year" on Form F cards, the appropriate entries made on Forms F and K and new cards and entries made for the ensuing year. *Two Form F cards are required for each case continued to next year.* On the Form F card for the year just ended a —— shall be entered under "disposition," with the number of sick days from date of taking up to December 31. On the Form F card for the ensuing year a —— shall be entered under "Taken up as," *followed by the date taken up in the previous year, but when finally disposed of, only the sick days for the current calendar year shall be reported on this card.*

6. Patients transferred to other than naval institutions should not have their records closed, except as provided for in the manual. In the case of treatment of persons on leave from their regular ship or station the medical officer at the place to which the person is attached, as well as the bureau, shall be informed.

7. *Names.*—Blank forms, letters, and telegrams, generally, which refer to personnel, deal primarily with the individual, and, as most all forms and correspondence are filed in jackets, under the name, it is imperative that the Christian name or names and surname be spelled out in full as far as possible.

Owing to the frequency with which some names appear in the files, it is at times impossible to differentiate between individuals whose names are similar when only the surname and initials are given.

8. *Grades and rates.*—As far as possible, the grades and rates of officers and enlisted men shall be spelled out in full, but where sufficient space is not provided, the following abbreviations shall be used:

## OFFICERS.

Admiral.....	Admr, VAd, or RAD
Captain (U. S. N.).....	Capt
Commander.....	Comdr
Lieut-Comdr.....	Lt-C
Lieutenant.....	Lt
Lieutenant (jr. gd.).....	Lt-jg
Ensign.....	Ens
Midshipman.....	Mid-1, etc.
Boatswain.....	CBoat or Boat
Gunner.....	CGun or Gun
Machinist.....	CMach or Mach
Carpenter.....	CCarp or Carp
Sailmaker.....	CSail or Sail
Pharmacist.....	CPharm or Pharm
Pay Clerk.....	CPayC or PayC
Brigadier General.....	BrGM
Colonel.....	ColM
Lieut-Colonel.....	LtCM
Major.....	MajM
Captain (U. S. M. C.).....	CapM
First Lieutenant.....	1-LtM
Second Lieutenant.....	2-LtM
Quartermaster Clerk.....	QrCM
Marine Gunner.....	MarG
Paymaster's Clerk.....	PCM

Staff corps, etc., shall be indicated by the following abbreviations, in parenthesis immediately following the abbreviations for ranks: e. g., Capt (MC), LtC (PC), Lt (CG), etc.

Medical Corps.....	(MC)
Medical Corps (Dental Surgeons).....	(MCDS)
Pay Corps.....	(PC)
Corps of Chaplain.....	(ChC)
Construction Corps.....	(CC)
Civil Engineer Corps.....	(CEC)
Professors of Mathematics.....	(Math)
Retired.....	(Ret)

Coast Guard Service.....	(CG)
Public Health Service..	(PHS)
Light House Service.....	(LHS)

SEAMAN BRANCH.

Master at Arms.....	CMAA, MAA-1c, etc.
Boatswain's mate.....	CBM, BM-1c, etc.
Gunner's mate.....	CGM, GM-1c, etc.
Turret captain.....	CTC, TC-1c
Quartermaster.....	CQM, QM-1c, etc.
Coxswain.....	Cox
Seaman gunner.....	SeaGun
Seaman.....	Sea, Sea-1c, etc.
Apprentice seaman.....	AS

ARTIFICER BRANCH.

Special mechanic.....	CSM, SM-1c, etc.
Machinist's mate.....	CMM, MM-1c, etc.
Electrician.....	CE, E-1c, etc.
Carpenter's mate.....	CCM, Cm-1c, etc.
Storekeeper.....	CSK, SK-1c, etc.
Printer.....	CPtrr, Prtr-1c, etc
Water tender.....	CWT, WT
Boiler maker.....	Bmkr
Coppersmith.....	Csmth-1c, or Csmth-2c
Pattern maker.....	Pmkr-1c, or Pmkr-2c
Molder.....	Mldr-1c, or Mldr-2c
Shipfitter.....	SF-1c, or SF-2c
Engineman.....	Eng-1c, or Eng-2c
Blacksmith.....	Bsmth-1c, or Bsmth-2c
Plumber and fitter.....	P&F
Sailmaker's mate.....	SMM
Painter.....	Ptr-1c, etc.
Oiler.....	Oil
Fireman.....	F-1c, etc.
Shipwright.....	Swght

SPECIAL BRANCH.

Yeoman.....	CY, Y-1c, etc.
Pharmacist's mate.....	CPhM, PhM-1c, etc.
Bandmaster.....	Bmstr
Commissary steward.....	CCStd, or ComStd

First musician.....	1st Mus
Ship's cook.....	SC-1c, etc.
Baker.....	Bkr-1c, or Bkr-2c
Hospital apprentice.....	HA-1c, or HA-2c
Musician.....	Mus-1c, or Mus-2c
Bugler.....	Bug
Landsman.....	Lds

## MESSMEN BRANCH.

Steward to commander in chief.....	StdCinC
Cook to commander in chief.....	CkCinC
Steward to commandant.....	StdCdt
Cook to commandant.....	CkCdt
Cabin steward.....	CabStd
Cabin cook.....	CabCk
Wardroom steward.....	WRStd
Wardroom cook.....	WRCK
Steerage steward.....	StgStd
Steerage cook.....	StgCk
Warrant officers' steward.....	WOSTd
Warrant officers' cook.....	WOCK
Mess attendant.....	MAtt-1c, etc.

## MARINE (ENLISTED).

Sergeant (all grades).....	Sergt
Corporal.....	Corp
Private.....	Pvt
Apprentice marine.....	ApM
Drummer.....	Drum
Trumpeter.....	Trump

## PRISONERS.

Men serving a sentence under a general court-martial (not those awaiting trial) shall be noted as GCMP, or for detentioners Det-1, etc., in spaces provided for ratings.

---

(9) *Nomenclature instructions.*—(a) The following lists of diseases and injuries shall be used for the official recording of disabilities and in all forms and returns to the department. These lists are composed of titles accepted by the commission on clinical records of the Bellevue Hospital, New York City, with some changes deemed desirable for naval use.

(b) The class numbers are given for reference only, not for use.

(c) Titles in italics, which are symptoms, are not to be used except when the primary disability is not determined.

(d) When two or more morbid entities exist, preference shall be given to (I) an infective disease; (II) the graver affection; and (III) a primary disability over a complication.

(e) Certain titles followed by the word "unqualified" are intended to cover such cases of those disabilities for which no other title is provided, and where occurring the word "unqualified" shall be substituted by the site of the disability or the principal organ affected, as abscess of neck, etc., or for instance epididymitis or orchitis, when due to a gonococcus infection should be returned as Gon. inf. of epididymis and Gon. inf. of testicle.

(f) All gonococcal, syphilitic, and chancroidal infections must be recorded under these titles, and titles such as cystitis acute, epididymitis acute, gonocystitis acute, orchitis acute, urethritis acute, etc., must not be used as primary diagnoses when due to venereal infection.

(g) It frequently happens that conditions existing prior to enlistment or appointment are taken up as admissions when as a matter of fact it is a sequel to the condition that should be actually reported, e. g., old wounds are reported that were inflicted prior to enlistment or appointment, as wound, gunshot, etc., when the case should be taken up as a cicatricial contraction, etc. It is a great mistake to charge our Navy statistics with numerous conditions, especially injuries, that were never incurred in the service when the real condition is never reported on the returns.

(h) The proper use of the titles "Malingering," "No disease," and "Diagnosis undetermined," is as follows: The first is when a patient claims to be ill or unduly exaggerates a disability when the medical officer is of the opinion that there is none or only slight actual disability; "No disease" is to be used for individuals who for any reason have to be carried on the medical department returns, as for rations or as "suspects" under observation for infectious diseases, do not claim to be sick and are not regarded as such by the medical officer; and "Diagnosis undetermined" is to be used when there is an evident disability present, the nature of which is, at the time, not evident.

The origin of the disability in cases taken up as "No disease" shall be determined in the same manner as prescribed in paragraph 2254, Manual for the Medical Department, for cases of bona fide disability.

The Bureau suggests in connection with the nomenclature title "No disease", that the condition held under observation for, be recorded as follows: "No disease (scarlet fever contact)."

(i) Diagnosis undetermined: In order to provide for the admission to the sick list and *transfer* of patients where, owing to insufficient time or lack of clinical apparatus, it is impracticable for the medical officer to make other than a tentative diagnosis, the use of the designation "Diagnosis undetermined" is made.

The object is to prevent the recording of diagnoses which are subsequently proved to be erroneous and which at times operate detrimentally to the future professional prospects of the patient.

Cases of "Diagnosis undetermined" shall be originally entered as admissions on all medical department returns, the tentative diagnosis, if desired, being inclosed in brackets as "Diagnosis undetermined (measles)," the further notations being made in a similar manner as when a diagnosis is made.

The returns of the place to which transferred shall take up the case as a readmission "R. A.," and when the diagnosis is established the case shall be discharged for change of diagnosis "C.," and readmitted "R. A.," with the proper diagnosis and other necessary entries made.

For the average case three Form F cards are required—

1. Ship (or other place), one card. A-T, Diagnosis undetermined.
2. Hospital (or other place), two cards required. RA-C, Diagnosis undetermined.
3. RA-and final disposition, with title of the diagnosis established.

"Diagnosis undetermined" shall only be used where it is necessary to admit a case and *transfer* it to some other place.

Under no circumstances shall a case of "Diagnosis undetermined" be disposed of as to duty, died, invalided from the service, or to sick leave.

Cases taken up with "Diagnosis undetermined" and disposed of as "Ran" or "Continued to next year" will, however, have to be reported to the bureau with "Diagnosis undetermined" on the records.

(j) Specialty key letters: The specialization of certain classes of naval work and the peculiar duties surrounding the nature of the work makes it desirable to inaugurate a system of special designations for diseases and injuries, and for this purpose the following key letters shall be used the same as key letters are now used for injuries:

R=Aeronautic duty. For diseases or injuries incident to actual flying.

S=Submarine duty. For diseases or injuries incident to actual maneuvering of or accident to the vessel.

U=Divers duty. For diseases or injuries incident to actual diving.

When used in connection with injury key letters, first give key letter for injury and follow by specialty key letter, e. g., drowning incident to flying, (D-R); when in submarine, (D-S); or while diving, (D-U).

The specialty key letter shall not be used for all persons attached to special duty, but only in cases of actual specialty work, that is, a person attached to aeronautic or submarine duty who is disabled on ordinary occasions should not have a specialty letter.

(k) No other titles than those given shall be used as prefixes for injuries and shall be followed, as required, by the site of the principal traumatism or organ injured and the causative agent. For wounds, the character of the traumatism (e. g., incised, lacerated, punctured) shall also be indicated.

(*l*) Under poisons, follow the word poison by the name of the substance, and where more than one condition of poisoning is recognized state either acute or chronic.

(*m*) For the titles of all injuries (wounds, etc., and poisons) a key letter referring to the cause under which the injury was received is required on all forms. In the health record and on forms not specially ruled the key letter is to follow the title, as "Wound, lacerated, neck, shrapnel, (K)," etc.

(*n*) Inasmuch as a correct translation of naval statistics of injuries into those of the International Classification requires an arrangement according to causes, it is necessary that the returns show the cause as well as the nature of the injury and causative agent.

The classification of causes desired by the Bureau is as follows:

A. Suicidal.

B. Homicidal.

C. Conflagration. Includes all injuries incident to general conflagration. Burns otherwise received are not classed hereunder.

D. Accidental drowning or submersion.

E. Traumatism by firearms, accidental. To include all injuries caused by the projectile, the blast from great guns, or from the piece when fired.

F. Traumatism by explosion. To include powder, gas, compressed air, or steam explosions, also the explosion of a gun.

G. Traumatism by fall.

H. Traumatism by machines.

I. Traumatism by other crushing.

J. Traumatism due to athletic sports.

K. Casualty in action against organized enemy.

L. Traumatism due to violence other than noted above.

The above key letters are to be used for example, as follows: Wound, punctured, of brain, pistol bullet (A), showing that it was inflicted with suicidal intent; (B) that it was homicidal, while if received in action the entry appears as (K). Accidental drowning or submersion should appear with the suffix (D), while if due to the destruction of a ship by fire as (C); if incident to the explosion of a magazine as (F), unless the same is incident, to action, when it should appear as (K).

(*o*) In taking up a case received from some other place, particular care shall be exercised to see that it is taken up with the same diagnosis, and for injuries, with the same key letter, under which transferred.

3038	Hypertrophy of clitoris.....	XXIV
3039	Hypertrophy of vulva.....	XXIV
3040	Laceration of cervix uteri, old.....	XXIV
3041	Laceration of pelvic floor, old.....	XXIV
3042	Mastitis, acute.....	XXIV
3043	Mastitis, chronic.....	XXIV
3044	Menopause.....	XXIV
3045	<i>Menorrhagia</i> .....	XXIV
3046	Menstruation, vicarious.....	XXIV
3047	Metritis, acute.....	XXIV
3048	Metritis, chronic.....	XXIV
3049	<i>Metrorrhagia</i> .....	XXIV
3050	<i>Neurosis of mammary gland</i> .....	XXIV
3051	Oophoritis, acute.....	XXIV
3052	Oophoritis, chronic.....	XXIV
3053	Pregnancy.....	XXIV

*Female diseases and conditions—Continued.*

Navy diag- nosis No.		Navy class No.
3054	Relaxation of pelvic floor.....	XXIV
3055	Salpingitis, acute.....	XXIV
3056	Salpingitis, chronic.....	XXIV
3057	Sclerosis of ovary.....	XXIV
3058	<i>Stricture of uterine canal</i> .....	XXIV
3059	Subinvolution of uterus.....	XXIV
3060	Vaginitis, acute.....	XXIV
3061	Vaginitis, chronic.....	XXIV
3062	Varix of broad ligament.....	XXIV
3063	Varix of vulva.....	XXIV
3064	Vulvitis, acute.....	XXIV
3065	Vulvitis, chronic.....	XXIV

# INJURIES.

Navy diag- nosis No.	Wounds, etc.	Navy class No.
2001	Abrasion (state site and causative agent).....	XXV
2002	Air embolism (state site and causative agent).....	XXV
2003	Avulsion (state part and causative agent).....	XXV
2004	Blood donor.....	XXV
2005	Burn (state site and causative agent).....	XXV
2006	Castration, traumatic (state causative agent).....	XXV
2007	Compression (state part and causative agent).....	XXV
2008	Contusion (state part and causative agent).....	XXV
2009	Crush (state part and causative agent).....	XXV
2010	Decapitation (state causative agent).....	XXV
2011	Deprivation of water.....	XXV
2012	Diagnosis undetermined.....	XXV
2013	Dislocation (state articulation and causative agent).....	XXV
2014	Drowning (fatal submersion).....	XXV
2015	Electric shock, injury from.....	XXV
2016	Emphysema, traumatic (state site and causative agent).....	XXV
2017	Epilation, traumatic (state site and causative agent).....	XXV
2018	Epiphyseal separation (state bone and causative agent).....	XXV
2019	Exhaustion from heat.....	XXV
2020	Exhaustion from overexertion.....	XXV
2021	Exhaustion from overexposure.....	XXV
2022	Foreign body, traumatic (state site and causative agent).....	XXV
2023	Fracture (state bone), compound (state causative agent).....	XXV
2024	Fracture (state bone), simple (state causative agent).....	XXV
2025	Fracture of penis.....	XXV
2026	Frostbite (state part).....	XXV

*Injuries—Continued.*

Navy diag- nosis No.	Wounds, etc.	Navy class No.
2027	Heat cramps.....	XXV
2028	Hematocoele, tunica vaginalis, traumatic (state causative agent).	XXV
2029	Hematoma (state site), traumatic (state causative agent).....	XXV
2030	Hemorrhage into eyeball, traumatic (state causative agent).....	XXV
2031	Hemorrhage into (state) joint, traumatic (state causative agent).	XXV
2032	Hemorrhage under conjunctiva, traumatic (state causative agent).....	XXV
2033	Intracranial injury (state causative agent).....	XXV
2034	Intraspinal injury (state causative agent).....	XXV
2035	Lightning stroke.....	XXV
2036	Multiple injuries, extreme (state causative agent).....	XXV
2037	Powdered glass, injury from swallowing.....	XXV
2038	Rupture (state organ or part), traumatic (state causative agent) (not to be used for herniæ, q. v., under diseases).....	XXV
2039	Skin donor.....	XXV
2040	Smoke inhalation.....	XXV
2041	Sprain (state joint).....	XXV
2042	Starvation.....	XXV
2043	Strain (state muscle).....	XXV
2044	Strangulation (state causative agent).....	XXV
2045	Strangulation of penis.....	XXV
2046	Submersion (nonfatal).....	XXV
2047	Sunburn (state site).....	XXV
2048	Sunstroke.....	XXV
2049	Synovitis (state joint), traumatic (state causative agent).....	XXV
2050	Thermic fever.....	XXV
2051	Torsion, spermatic cord, traumatic.....	XXV
2057	Trench foot.....	XXV
2052	Urethral fever, traumatic.....	XXV
2058	Wound, (state character, site, and causative agent).....	XXV

Navy diag- nosis No.	Poisons.	Navy class No.
2102	Creatoxism.....	XXVI
2103	Diagnosis undetermined.....	XXVI
2104	Insect sting.....	XXVI
2105	Lathyrism.....	XXVI
2106	Poison (state anæsthetic), anæsthesia.....	XXVI
2107	Poison (state substance and whether acute or chronic).....	XXVI

#### CLASSIFICATION OF THE UNITED STATES NAVY NOMENCLATURE.

For the information of the service the following lists are published showing the classification of the nomenclature as used by the Bureau of Medicine and Surgery for combining diseases and injuries for statistical purposes.

These lists may also be of use in the selection of a diagnosis, as under each class heading occur the items deemed desirable for use. In several of the tables in the Surgeon General's report, where class headings are used for combinations, some idea may be had as to the items used in making up the report.

#### CLASSIFICATION OF DISEASES AND INJURIES, UNITED STATES NAVY.

CLASS I. Diseases of blood.

II. Diseases of circulatory system.

III. Diseases of digestive system.

IV. Diseases of ductless glands and spleen.

V. Diseases of ear.

VI. Diseases of eye and adnexa.

VII. Diseases of genito-urinary system (nonvenereal).

VIII. Communicable diseases transmissible by oral and nasal discharges.

- Class IX. Communicable diseases transmissible by intestinal discharges.
- X. Communicable diseases transmissible by insects and other arthropods.
- XI. Tuberculosis (all forms).
- XII. Venereal diseases.
- XIII. Other diseases of infective type.
- XIV. Diseases of lymphatic system.
- XV. Diseases of mind.
- XVI. Diseases of motor system.
- XVII. Diseases of nervous system.
- XVIII. Diseases of respiratory system.
- XIX. Diseases of skin, hair, and nails.
- XX. Herniæ.
- XXI. Miscellaneous diseases and conditions.
- XXII. Parasites (fungi and certain animal parasites).
- XXIII. Tumors.
- XXIV. Female diseases and conditions.
- XXV. Injuries.
- XXVI. Poisons.

CLASS I.—*Diseases of blood.*

Anemia, pernicious.	Leukemia.
Anemia, simple.	Polycythemia, chronic.
Anemia, splenic.	Purpura.
Hemophilia.	Purpura, hemorrhagic.

CLASS II.—*Diseases of circulatory system.*

Aneurism.	Bradycardia.
Aneurism, cirroid.	Dilatation, acute cardiac.
Aneurism, of heart.	Dilatation, chronic cardiac.
Aneurism, varicose.	Embolism.
Aneurismal varix.	Endocarditis, acute.
Angina pectoris.	Endocarditis, chronic.
Aortitis.	Fatty heart.
Arterial sclerosis, general.	Heart block.
Atrophy of heart.	Hypertrophy of heart.

CLASS II.—*Diseases of circulatory system*—Continued.

Mediastino-pericarditis.	Pneumopericardium.
Myocarditis, acute.	Pyopneumopericardium.
Myocarditis, chronic.	Rupture of heart, spontaneous.
Palpitation, cardiac.	Tachycardia.
Pericarditis.	Thrombosis.
Pericardium, adherent.	Valvular disease, chronic cardiac.
Phlebitis.	Varix.

CLASS III.—*Diseases of digestive system*.

Abscess about rectum.	Cirrhosis of liver, atrophic.
Abscess of liver.	Cirrhosis of liver, hypertrophic.
Abscess of omentum.	Colitis, acute.
Abscess of pharynx.	Colitis, chronic.
Abscess of salivary gland.	Concretions in salivary gland.
Abscess of tongue.	Concretions in tonsil.
Abscess, subphrenic.	Constipation.
Achylia gastrica.	Deformity of liver, acquired
Adhesions about gall bladder.	Deformity of palate, acquired.
Adhesions about stomach.	Deformity of stomach, acquired.
Adhesions of peritoneum.	Dilatation of esophagus.
Angina ludovici.	Dilatation of stomach, acute.
Appendicitis, acute.	Dilatation of stomach, chronic.
Appendicitis, chronic.	Displacement of liver.
Artificial anus.	Diverticulitis.
Atony of stomach.	Diverticulum of esophagus.
Atrophy of liver, acute yellow.	Diverticulum of intestines, acquired.
Atrophy of pancreas.	Duodenitis.
Atrophy of stomach.	Elongation of uvula.
Atrophy of tongue.	Enteritis, acute.
Autointoxication, intestinal.	Enteritis, chronic.
Calculus of pancreas.	Enterocolitis.
Cardiospasm.	Enterolith.
Caries of tooth.	Esophagitis.
Cholangitis, acute.	Fatty liver.
Cholangitis, chronic.	Fermentation, gastric.
Cholecystitis, acute.	Fermentation, intestinal.
Cholecystitis, chronic.	Fissure of anus.
Cholelithiasis.	Fistula, biliary.
Chyle cyst of mesentery.	Fistula, fecal.
Chylous ascites, nonfilarial.	Fistula in ano.

CLASS III.—*Diseases of digestive system*—Continued.

Fistula of salivary (gland or duct).	Peritonitis, chronic, local.
Foreign body in esophagus.	Perihepatitis.
Foreign body in intestines.	Perversion of appetite.
Foreign body in pharynx.	Pharyngitis, acute.
Foreign body in rectum.	Pharyngitis, chronic.
Foreign body in stomach.	Pneumophagia.
Functional derangement of liver.	Proctalgia.
Gaseous tumor of parotid.	Proctitis.
Gastritis, acute catarrhal.	Prolapse of rectum.
Gastritis, chronic catarrhal.	Pylephlebitis.
Gastritis, acute phlegmonous.	Pyloric incontinence.
Gastroduodenitis.	Pylorospasm.
Gastroenteritis.	Pyorrhoea alveolaris.
Gastroptosis.	Regurgitation of stomach.
Gingivitis.	Rumination.
Glossitis, acute.	Rupture of esophagus, spontaneous.
Glossitis, chronic.	Spasm of esophagus.
Hematemesis.	Spasm of rectum.
Hemorrhage, intestinal.	Splanchnoptosis.
Hemorrhoids.	Sprue.
Hyperchylia, gastric.	Stenosis of gall duct.
Hypertrophy of tonsil.	Stenosis of pylorus.
Hypochlorhydria.	Stomatitis.
Impacted feces.	Stomatitis, gangrenous.
Inflammation of salivary gland.	Stricture of esophagus.
Nervous dyspepsia.	Stricture of intestine.
Neurosis, intestinal.	Stricture of pharynx.
Neurosis of pharynx.	Stricture of rectum.
Obstruction, acute intestinal.	Torsion of omentum.
Obstruction, chronic intestinal.	Ulcer of duodenum.
Obstruction of pancreatic duct.	Ulcer of intestines.
Obstruction of portal vein.	Ulcer of mouth.
Pancreatitis, acute.	Ulcer of rectum.
Pancreatitis, chronic.	Ulcer of stomach.
Peritonitis, acute, general.	Ulceromembranous angina.
Peritonitis, acute, local.	Vomiting, recurrent.
Peritonitis, chronic, general.	Xerostomia.

CLASS IV.—*Diseases of ductless glands and spleen.*

Abscess of spleen.	Myxedema.
Acromegaly.	Perisplenitis.
Addison's disease.	Persistent thymus gland.
Cretinism.	Rupture of spleen, spontaneous.
Exophthalmic goitre.	Splenitis, acute.
Goitre.	Splenitis, chronic interstitial.
Hemorrhage into parathyroid gland.	Splenoptosis.
Hemorrhage into suprarenal gland.	Thyroiditis, acute.
Infarct of spleen.	Thyroiditis, chronic.

CLASS V.—*Diseases of ear.*

Ankylosis of ossicles.	Mastoiditis, chronic.
Caries of ossicle.	Myringitis, acute.
Cerumen, accumulation of.	Myringitis, chronic.
Deafness.	Ossification of auricle.
Deformity of external ear, acquired.	Otitis externa.
Eustachian salpingitis, acute.	Otitis interna, acute.
Eustachian salpingitis, chronic.	Otitis interna, chronic.
Foreign body in auditory canal.	Otitis media, acute.
Hematoma of external ear, nontraumatic.	Otitis media, chronic.
Hemorrhage into labyrinth.	Perichondritis of auricle.
Mastoiditis, acute.	

CLASS VI.—*Diseases of eye and adnexa.*

Abscess of eye and adnexa.	Cramp of ciliary muscle.
Absence of lens.	Cyclitis.
Amaurosis.	Dacryoadenitis.
Amblyopia.	Dacryocystitis.
Ankyloblepharon.	Detachment of choroid.
Astigmatism.	Detachment of retina.
Atrophy of optic nerve.	Ectropion.
Blepharitis.	Entropion.
Cataract.	Epiphora.
Chalazion.	Fistula of lachrymal sac.
Choroiditis.	Fistula of nasal duct.
Color blindness.	Glaucoma, acute.
Conjunctivitis, acute.	Glaucoma, chronic.
Conjunctivitis, chronic.	Hemianopsia.
Conjunctivitis, phlyctenular.	Hemorrhage into retina.

CLASS VI.—*Diseases of eye and adnexa*—Continued.

Hemorrhage under conjunctiva, non-traumatic.	Nystagmus.
Hordeolum.	Opacity of vitreous humor.
Hyperesthesia of retina.	Ophthalmoplegia.
Hyperemia of conjunctiva.	Panophthalmitis.
Hypermetropia.	Paralysis of ocular muscle.
Hypopyon.	Presbyopia.
Insufficiency of ocular muscle.	Pterygium.
Iridochoroiditis.	Retinitis.
Iridocyclitis.	Scleritis.
Iritis.	Snow blindness.
Keratitis.	Staphyloma of cornea.
Keratitis, phlyctenular.	Stenosis of nasal duct.
Keratoiritis.	Stenosis of punctum lacrimale.
Leukoma.	Symblepharon.
Myopia.	Synechia.
Neuritis, optic.	Trachoma.
Neuroretinitis.	Trichiasis.
Night blindness.	Ulcer of eye and adnexa.
	Xerosis.

CLASS VII.—*Diseases of genito-urinary system (nonvenereal)*.

Abscess about urethra.	Chyluria, nonfilarial.
Abscess of bladder wall.	Concretion in seminal vesical.
Abscess of Cowper's glands.	Concretions, preputial.
Abscess of kidney.	Congestion of kidney.
Abscess of kidney, perinephritic.	Cystitis, acute.
Abscess of prostate gland.	Cystitis, chronic.
Abscess of scrotum.	Cyst of kidney.
Adhesions, preputial.	Deformity of bladder, acquired.
Albuminuria.	Deformity of penis, acquired.
Atony of bladder.	Deformity of urethra, acquired.
Atrophy of prostate.	Enlargement of prostate.
Atrophy of testicle.	Epididymitis, acute.
Bacteriuria.	Epididymitis, chronic.
Balanoposthitis.	Extravasation of urine.
Calculus in bladder.	Fistula, intestino-ureteral.
Calculus in prostate.	Fistula, intestino-vesical.
Calculus in ureter, impacted.	Fistula of bladder.
Calculus in urethra, impacted.	Fistula of kidney.
Chylocele, nonfilarial.	Fistula of ureter.

CLASS VII.—*Diseases of genito-urinary system (nonvenereal)*—Continued.

Fistula of urethra.	Nephroptosis.
Fistula, recto-urethral.	Neurosis of bladder.
Fistula, uretero-vesical.	Orchitis, acute.
Fistula, urethro-vesical.	Orchitis, chronic.
Foreign body in bladder.	Paraphimosis.
Foreign body in ureter.	Phimosis.
Foreign body in urethra.	Prostatitis, acute.
Gonocystitis, acute.	Prostatitis, chronic.
Gonocystitis, chronic.	Pyelitis.
Hematocele of spermatic cord.	Pyelonephritis.
Hematoma of spermatic cord, nontraumatic.	Redundant prepuce.
Hematuria, renal.	Redundant scrotum.
Hemoglobinuria.	Sclerosis of corpus cavernosum.
Hydrocele of spermatic cord.	Seminal emissions.
Hydrocele of tunica vaginalis.	Spermatocele.
Hydronephrosis.	Spermatorrhea.
Impotence.	Sterility.
Incontinence of urine.	Stricture of ureter.
Infarct of kidney.	Stricture of urethra.
Inflammation of spermatic cord.	Suppression of urine.
Masturbation.	Torsion of spermatic cord, nontraumatic.
Nephralgia.	Ulcer of bladder.
Nephritis, acute.	Ureteral colic.
Nephritis, chronic interstitial.	Ureteritis.
Nephritis, chronic parenchymatous.	Urethritis, acute.
Nephritis, disseminated, suppurative.	Urethritis, chronic.
Nephrolithiasis.	Varicocele.

CLASS VIII.—*Communicable diseases transmissible by oral and nasal discharges.*

Cerebrospinal fever.	Pneumonia, broncho.
Chicken pox.	Pneumonia, lobar.
Diphtheria.	Poliomyelitis, acute anterior.
German measles.	Poliomyelitis, acute bulbar.
Glanders.	Scarlet fever.
Influenza.	Smallpox.
Measles.	Whooping cough.
Mumps.	

CLASS IX.—*Communicable diseases transmissible by intestinal discharges.*

Cholera, asiatic.	Paratyphoid fever.
Dysentery, bacillary.	Typhoid fever.
Dysentery, entamebic.	

CLASS X.—*Communicable diseases transmissible by insects and other arthropods.*

Dengue.	Relapsing fever.
Filariasis.	Rocky Mountain spotted fever.
Kala-azar.	Trench fever.
Malaria.	Trypanosomiasis.
Pappataci fever.	Typhus fever.
Plague.	Yellow fever.

CLASS XI.—*Tuberculosis (all forms).*

Tuberculosis, abdominal.	Tuberculosis of joint.
Tuberculosis, acute broncho-pneumonic.	Tuberculosis of larynx.
Tuberculosis, acute general.	Tuberculosis of pleura.
Tuberculosis, acute pneumonic.	Tuberculosis of spinal column.
Tuberculosis, acute pulmonary miliary.	Tuberculosis of trachea.
Tuberculosis, chronic pulmonary.	Tuberculosis, unqualified.
Tuberculosis of bronchus.	Tuberculous meningitis.

CLASS XII.—*Venereal diseases.*

Chancroid.	Gonococcus infection of lymph-node.
Chancroid of lymph-node.	Gonococcus infection of urethra.
Gonococcus infection of conjunctiva.	Gonococcus infection, unqualified.
Gonococcus infection of joints.	Syphilis.

CLASS XIII.—*Other diseases of infective type.*

Abscess, unqualified.	Jaundice, acute infective.
Aerogenes capsulatus infection.	Leprosy.
Anthrax.	Meningitis, cerebrospinal.
Botulism.	Miliary fever.
Carbuncle.	Oriental sore.
Cellulitis.	Poliomyelitis, chronic anterior.
Dysentery, unclassified.	Rabies.
Encephalitis, epidemic (lethargic).	Rheumatic fever, acute.
Erysipelas.	Rheumatic fever, subacute.
Fever of unknown cause.	Septicemia.
Foot and mouth disease	Tetanus.
Furunculosis.	Undulant fever.
Gangosa.	Vaccinia.
Gangrene, infective.	Veldt sore.
Hemoglobinuric fever.	Verruga peruviana.
Histoplasmosis.	Yaws.

CLASS XIV.—*Diseases of lymphatic system.*

Abscess of axilla.	Lymphadenitis, acute.
Abscess of lymph-node.	Lymphadenitis, chronic.
Elephantiasis, nonfilarial.	Lymphangiectasis.
Fistula of thoracic duct.	Lymphangitis.
Hodgkin's disease.	Status lymphaticus.

CLASS XV.—*Diseases of mind.*

Constitutional inferiority (mental).	Psychosis, due to organic brain disease.
Constitutional psychopathic state.	Psychosis, epileptic.
Dementia, paralytica.	Psychosis (exhaustive, infective, and toxic).
Dementia, praecox.	Psychosis, hysterical.
Idiocy.	Psychosis, intoxication.
Imbecility.	Psychosis, manic depressive.
Melancholia, involutional.	Psychosis, polyneuritic.
Moron.	Psychosis, senile.
Paranoia.	Psychosis, traumatic.
Paranoiac state.	Psychosis, unclassified.
Psychasthenia.	
Psychoneurosis.	

CLASS XVI.—*Diseases of motor system.*

Amyotonia congenita.	Hernia of (muscle, fascia, tendon, sheath).
Ankylosis of joint.	Hypertrophy of bone.
Arthritis, acute.	Leontiasis ossea.
Arthritis, chronic.	Loose body in joint.
Arthritis, deformans.	Loss of substance of (bone or cartilage).
Atrophy of (bone or cartilage).	Mallet finger.
Atrophy of muscle.	Metatarsalgia.
Bursitis, acute.	Myositis, acute.
Bursitis, chronic.	Myositis, chronic.
Calcification of cartilage.	Myositis, progressive ossifying.
Chondritis.	Myositis, traumatic ossifying.
Chondromalacia.	Myotonia, congenital.
Contracture of joint.	Necrosis.
Contracture of (muscle, fascia, tendon, or sheath).	Ossification of cartilage, unqualified.
Coxa valga.	Osteitis deformans.
Coxa vara.	Osteomalacia.
Cramp of muscle.	Osteomyelitis, acute.
Curvature of spine.	Osteomyelitis, chronic.
Ganglion.	Paralysis, muscle, ischemic.
Genu recurvatum.	Periostitis, acute.
Genu valgum.	Periostitis, chronic.
Genu varum.	Pes cavus.
Hallux valgus.	Pes planus.
Hallux varus.	Talipes.
Hammer toe.	Tenosynovitis.
Hemorrhage into joint, nontraumatic.	Trigger finger.
	Union of fracture, faulty.

CLASS XVII.—*Diseases of nervous system.*

Abscess of brain.	Meningitis, spinal.
Anemia of brain.	Myasthenia gravis.
Angiospastic edema.	Myelitis, disseminated.
Aphasia.	Myelitis, transverse.
Apoplexy.	Neuralgia.
Arterial sclerosis, cerebral.	Neurasthenia.
Ataxia, hereditary.	Neuritis.
Athetosis.	Neuritis, multiple.
Caisson disease.	Neurosis, occupational.
Catalepsy.	Neurosis, traumatic.
Chorea.	Neurosis, war.
Chorea, chronic progressive.	Pachymeningitis, cerebral.
Cyst of brain.	Pachymeningitis, spinal.
Dystrophy, progressive muscular.	Paralysis, acute ascending.
Encephalitis, acute.	Paralysis, agitans.
Epilepsy.	Paralysis, Brown-Sequard's.
Epilepsy, Jacksonian.	Paralysis of nerve.
Hematomyelia.	Paramyoclonus multiplex.
Hemorrhachis.	Paraplegia, ataxic.
Hemiplegia, old.	Sclerosis, amyotrophic lateral.
Hemorrhage, epidural.	Sclerosis, disseminated.
Hemorrhage into cerebellum.	Sclerosis, lateral.
Hemorrhage in cerebrum.	Somnambulism.
Hemorrhage into medulla.	Spasm habit.
Hemorrhage into pons.	Spasm nodding.
Hemorrhage, subdural.	Spasm saltatory.
Hernia of brain.	Stammering.
Hiccough.	Stuttering.
Hydrocephalus, acquired.	Syringomyelia.
Hypochondriasis.	Tic, convulsive.
Hysteria.	Tic, coordinated.
Locomotor ataxia.	Tic, psychical.
Ménière's disease.	Zoster.
Meningitis, cerebral.	

CLASS XVIII.—*Diseases of respiratory system.*

|--|---|

CLASS XIX.—*Diseases of skin, hair, and nails.*

Acne.  
 Alopecia.  
 Alopecia areata.  
 Angiokeratoma.  
 Anidrosis.  
 Atrophy of skin.  
 Bromidrosis.  
 Callositas.  
 Chilblain.  
 Chloasma.  
 Chromidrosis.  
 Cicatrix of skin.  
 Clavus.  
 Comedo.  
 Cornu.  
 Dermatitis gangrenosa.  
 Dermatitis venenata.  
 Dermatitis, unqualified.  
 Dysidrosis.  
 Ecthyma.  
 Eczema.  
 Erythema multiforme.  
 Erythema nodosum.  
 Erythema scarlatiniforme.  
 Erythema simplex.  
 Fissure of skin.  
 Folliculitis decalvans.  
 Herpes.  
 Hyperidrosis.  
 Ichthyosis.  
 Impetigo contagiosa.  
 Impetigo herpetiformis.  
 Impetigo simplex.  
 Ingrowing nail.  
 Intertrigo.

Keratodermia.  
 Keratosis.  
 Lentigo.  
 Leukodermia.  
 Leukokeratosis.  
 Lichen, planus.  
 Lichen, ruber.  
 Lupus, erythematous.  
 Melanodermia.  
 Miliaria.  
 Miliium.  
 Molluscum contagiosum.  
 Mycosis fungoides.  
 Nevus.  
 Onychauxis.  
 Onychia.  
 Onychoma.  
 Pemphigus.  
 Pityriasis rosea.  
 Pityriasis simplex.  
 Prurigo.  
 Pruritus.  
 Psoriasis.  
 Rhinoscleroma.  
 Rosacea.  
 Sclerodermia.  
 Seborrhea.  
 Sudamina.  
 Ulcer of skin.  
 Urticaria.  
 Urticaria pigmentosa.  
 Wart.  
 Xanthoma.  
 Xerodermia pigmentosa.

CLASS XX.—*Herniæ.*

Hernia, epigastric.	Hernia, ischiorectal.
Hernia, femoral.	Hernia, lumbar.
Hernia, inguinal.	Hernia, obturator.
Hernia, internal.	Hernia, umbilical.
Hernia, ischiatic.	Hernia, ventral.

CLASS XXI.—*Miscellaneous diseases and conditions.*

Acidosis, nondiabetic.	Insomnia.
Adiposis dolorosa.	Lipemia.
Ainhum.	Malformations, congenital.
Amputation, stump.	Malingering.
Amyloid disease.	Malnutrition.
Anti-inoculation, unqualified.	Migraine.
Beriberi.	Mikulicz's disease.
Carrier, comma bacillus.	Milk sickness.
Carrier diphtheria bacillus.	Nausea marina.
Carrier, meningococcus.	No disease.
Carrier, typhoid bacillus.	Nostalgia.
Carrier, unqualified.	Obesity.
Cicatricial contraction.	Ochronosis.
Cystinuria.	Osteoarthropathy, hypertrophic.
Dentition.	Pellagra.
Diabetes insipidus.	Phantom tumor.
Diabetes mellitus.	Raynaud's disease.
Diagnosis undetermined.	Rheumatism, chronic articular.
Erythromelalgia.	Rheumatism, muscular.
Gangrene.	Rickets.
Gigantism.	Scurvy.
Glycosuria.	Senility.
Gout, acute.	Shock.
Gout, chronic.	Sinus.
Headache.	Tetany.
Hemochromatosis.	Vertigo.
Hypertrophy of mammary gland.	

CLASS XXII.—*Parasites (fungi and certain animal parasites).*

Abscess, entamebic, liver.	Myiasis.
Abscess, entamebic, unqualified.	Oxyuriasis.
Actinomycosis.	Paragonimiasis.
Ascariasis.	Parameba hominis.
Aspergillosis.	Pediculosis.
Blastomycosis.	Piedra.
Coccidiosis.	Pinta.
Cysticercus of brain.	Pityriasis versicolor.
Cysticercus of liver.	Sarcopsiliasis.
Cysticercus of lung.	Scabies.
Cysticercus, unqualified.	Schistosomiasis, intestinal.
Dioctophyme renale.	Schistosomiasis, urinary.
Discomycosis.	Sporotrichosis.
Dracontiasis.	Strongyloides, intestinal.
Dysentery, balantidic.	Strongylus, Gibsoni.
Echinococcus.	Teniasis.
Erysipeloid.	Thrush.
Erythrasma.	Trichiniasis.
Favus.	Trichophytosis.
Flagellate diarrhea.	Trichostrongylus instabilis.
Larva migrans.	Trichuriasis.
Metastrongylus apri.	Trichuris trichiura.
Mucormycosis.	Uncinariasis.
Mycetoma.	

CLASS XXIII.—*Tumors.*

Adenoma.	Lymphoma.
Angioma.	Mixed benign tumor.
Carcinoma.	Mixed malignant tumor.
Chondroma.	Myoma.
Cystoma.	Myxoma.
Endothelioma.	Neuroma.
Epithelioma.	Odontoma.
Fibroma.	Osteoma.
Glioma.	Papilloma.
Hypernephroma.	Retention cyst.
Lipoma.	Sarcoma.
Lymphangioma.	Teratoma.

CLASS XXIV.—*Female diseases and conditions.*

Abortion.	Hematoma of vulva, nontraumatic.
Abscess of Bartholin's gland.	Hematosalpinx.
Abscess of mammary gland.	Hydrocele of round ligament.
Abscess of ovary.	Hydrocele of vulva.
Abscess, parauterine.	Hypertrophy of cervix uteri.
Abscess, pelvic.	Hypertrophy of clitoris.
Abscess of vagina.	Hypertrophy of vulva.
Abscess of vulva.	Laceration of cervix uteri, old.
Adhesions about clitoris.	Laceration of pelvic floor, old.
Amenorrhoea.	Mastitis, acute.
Atresia of vagina, acquired.	Mastitis, chronic.
Atresia of uterus, acquired.	Menopause.
Atrophy of mammary gland.	Menorrhagia.
Atrophy of uterus.	Menstruation, vicarious.
Displacement of Falloppian tube.	Metritis, acute.
Displacement of ovary.	Metritis, chronic.
Displacement of uterus, unqualified.	Metrorrhagia.
Dysmenorrhoea.	Neurosis of mammary gland.
Endometritis, acute.	Oöphoritis, acute.
Endometritis, chronic.	Oöphoritis, chronic.
Fissure of nipple.	Pregnancy.
Fistula, intestino-uterine.	Relaxation of pelvic floor.
Fistula of mammary gland.	Salpingitis, acute.
Fistula, rectovaginal.	Salpingitis, chronic.
Fistula, uterovaginal.	Sclerosis of ovary.
Fistula, uterovesical.	Stricture of uterine canal.
Fistula, vesicovaginal.	Subinvolution of uterus.
Foreign body in vagina.	Vaginitis, acute.
Galactocele.	Vaginitis, chronic.
Galactorrhoea.	Varix of broad ligament.
Gestation, extrauterine.	Varix of vulva.
Hematocele, pelvic.	Vulvitis, acute.
Hematoma of ovary.	Vulvitis, chronic.

CLASS XXV.—*Injuries.*

Abrasion.	Hematocoele, tunica vaginalis.
Air embolism.	Hematoma.
Avulsion.	Hemorrhage into eyeball.
Blood donor.	Hemorrhage into joint.
Burn.	Hemorrhage under conjunctiva.
Castration.	Intracranial injury.
Compression.	Intraspinal injury.
Contusion.	Lightning stroke.
Crush.	Multiple injuries, extreme.
Decapitation.	Powdered glass, injury from swallowing.
Deprivation of water.	Rupture (not hernia).
Diagnosis undetermined.	Skin donor.
Dislocation.	Smoke inhalation.
Drowning.	Sprain.
Electric shock.	Starvation.
Emphysema.	Strain.
Epilation.	Strangulation.
Epiphy seal separation.	Strangulation of penis.
Exhaustion, heat.	Submersion.
Exhaustion, overexertion.	Sunburn.
Exhaustion, overexposure.	Sunstroke.
Foreign body.	Synovitis.
Fracture, compound.	Thermic fever.
Fracture, simple.	Torsion, spermatic cord.
Fracture of penis.	Trench foot.
Frostbite.	Urethral fever.
Heat cramps.	Wound (state character, etc.).

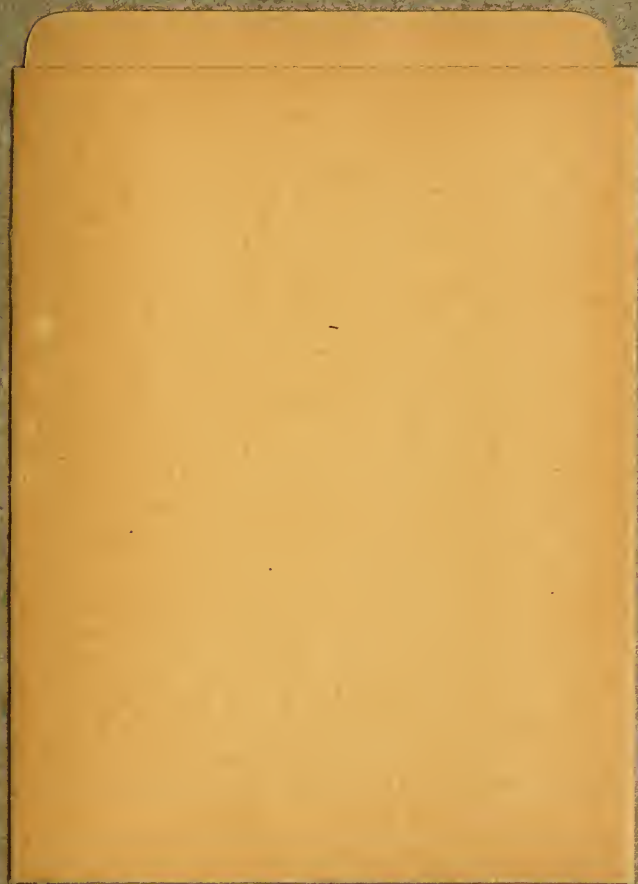

CLASS XXVI.—*Poisons.*

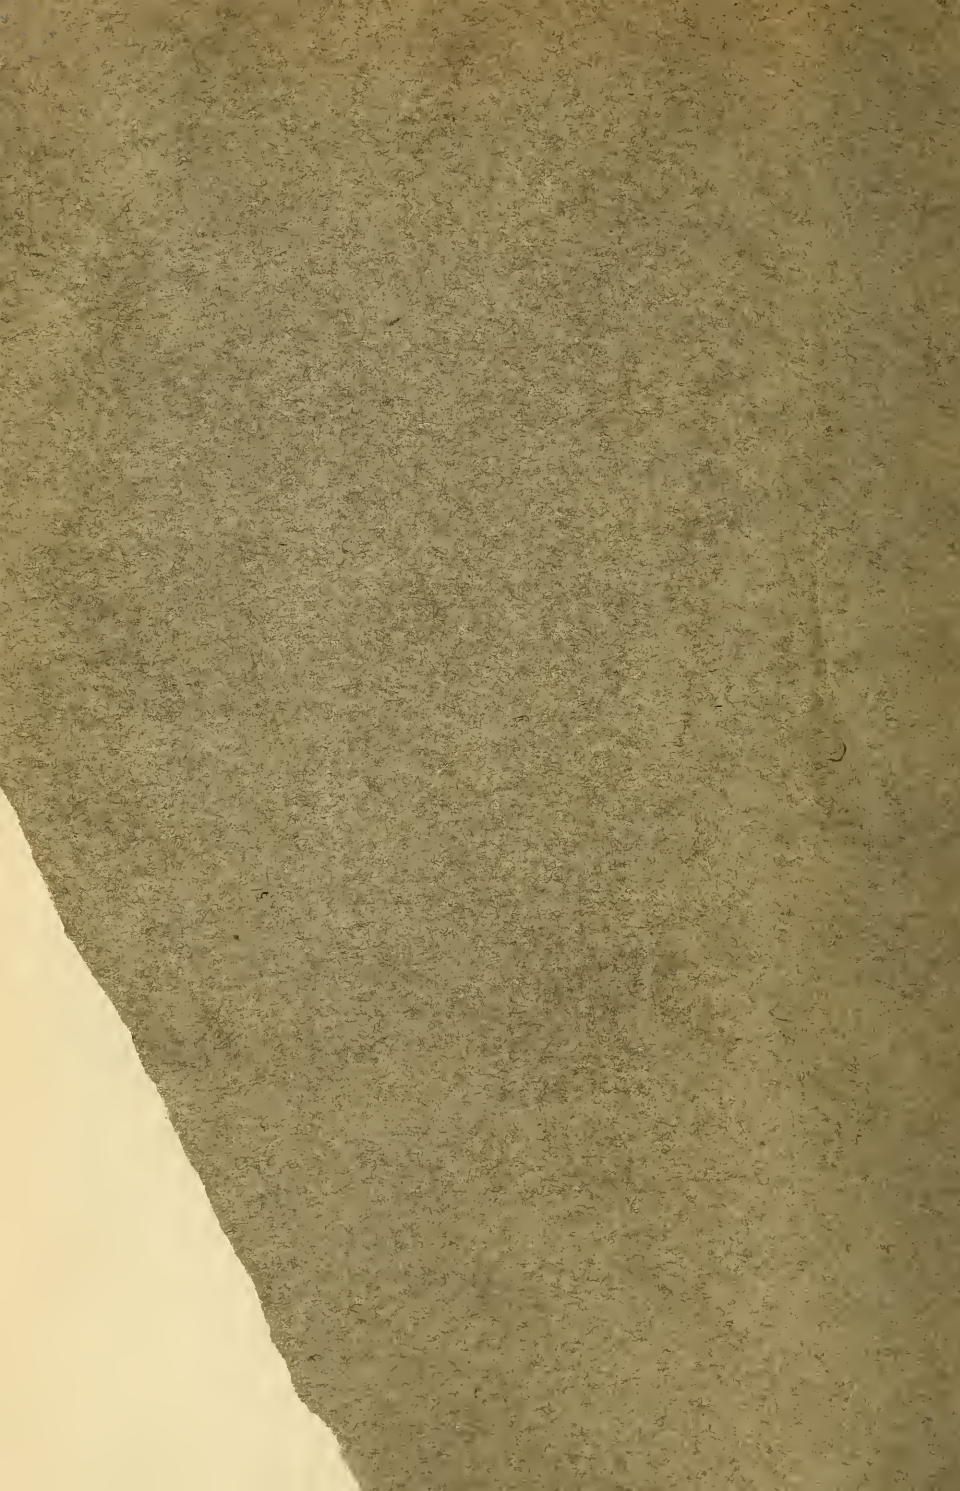

Cretoxisism.	Lathyrism.
Diagnosis undetermined.	Poison, anaesthesia.
Insect sting.	Poison (state substance).
